**DEPARTMENT OF GEOGRAPHY**  
**WORLD TOURISM DAY - TOUREX – 2018-2025**

**THE CONCEPT OF TOUREX**

**World Tourism Day** celebrated every year on September -27 is a fest for all in the tourism and allied sectors. For students of the tourism department in Queen Mary's College, it's a grand celebration.

**TOUREX** started in the year 1995, since then the tourex is being successfully conducted every year in the month of September 27, as this day the world tourism day is celebrated worldwide. This celebration called Tourex brings a new colour and vigor to the department. Students get engrossed in making models, charts forth estate selected by them. Each and every stall would give a complete picture of that state which can be used for their future tours, like tourex. Cuisines prepared retains its authenticity, costumes also depict the state. Chief Guests have been enthralled seeing the stalls. Students also participate in cultural events to display to the audience.

The main theme of Tourex was bringing out or tapping out the creativity of the students, not only tourism students but also the geography students. The students select any one state of India and exhibit the state's tourism spots in the form of models and also exhibit the write up (charts handwritten) of the particular model; where is it located, how to travel-distance from road, rail or air and all other required details. Any outsider reads this write up and sees the model would get an idea of how to travel and reach the destination. Apart from this, the state so there specialties areal so exhibited. For instance, the famous food or cuisines of that state, traditional and regional costumes of the state, display of their traditional and regional handicrafts and soon. Apart from tapping the skills and creativity of the students, the chief guest from various esteem organization would share their experiences and also brief them about the career opportunities available in the tourism industry. The tourism student's profile is made as a broucher and is released on the day of inauguration. Copies of these brochures are given to the Chief Guest, from which the students get job opportunities. TourEx is a different experience for the students, staff, Chief Guest and those who visit the stalls. TourEx remains the jewel on the crown for the Department of Geography and Tourism yesterday, today and in the years to come. For the department of geography and tourism, TOUREX plays important troleas best practices offered to the students.

## **WORLDTOURISMDAY-TOUREX-2020**

World Tourism Day 2020 had a very low-key celebration at the Department of Geography & Tourism in Queen Marys College (A) due to the widespread pandemic of COVID. The theme for the day was “Tourism and Rural Development” with Mr.Rahool KR Talwar, as Executive Director, Rethink Hospitality Private Limited as the Chief Guest Speaker.

His main focus was a rural tourism with an indirect empowering of rural communities. He stressed that the young people should travel more to experience their culture and learn their traditions. In order to help these communities to grow and develop, we need to connect with the locals and buy their ethnic products. Lot of authentic and ethnic products do not come to the open market. He also gave his experience as the rural tour and the authentic food from the local communities. Tourism empowers rural communities, providing jobs and opportunity, most notably for women and youth.

# TOURISM

Tourism is the activities of people travelling to and staying in places outside their usual environment for leisure, business or other purposes for not more than one consecutive year.

Wanderlust is strongly embedded in human evolutionary history. Modern humans, it's estimated, lived in nomadic communities for as much as 99 percent of our history, following the seasons, hunting opportunities and ritual patterns. Sometime around 10,000 years ago, agriculture, aka the skill to harvest crops in one place that could feed bigger communities, was developed.

## SUSTAINABILITY SUSTAINABLE TOURISM SHOULD

Make optimal use of environmental resources that constitute a key element in tourism development, maintaining essential ecological processes and helping to conserve natural heritage and biodiversity.

Respect the socio-cultural authenticity of host communities, conserve their built and living cultural heritage and traditional values, and contribute to inter-cultural understanding and tolerance.

Ensure viable, long-term economic operations, providing socio-economic benefits to all stakeholders that are fairly distributed, including stable employment and income earning opportunities and social services to host communities, and contributing to poverty alleviation.
